Climbing Mt Kilimanjaro

Mt Kilimanjaro is not only the highest peak on the African continent; it is also the tallest freestanding mountain in the world. Climbing Kilimanjaro is one of the most rewarding experiences you might ever have the chance to do. Anyone in good physical shape has a great chance of reaching the summit if they plan carefully, even with no real previous climbing experience. Of course, that's not to make it sound easy. It's not, climbing Kilimanjaro is very challenging and not everyone makes it all the way to the summit.
